

Endocrine Clinic List

Once diagnosis is suspected, patients should be referred to a specialist endocrine (tertiary) centre with a full range of expertise available, for further assessment and treatment. An accredited clinical endocrinologist should be responsible for coordinating all treatment, both to ensure proper diagnosis is made and for long-term care. All endocrine referrals should be managed within 18 weeks. **NB: this may be longer due to NHS delays that they are and have been experiencing**

Please note: The exception for patients with (as an example) a small prolactinoma, will be treated appropriately by endocrinologists in secondary care, rather than requiring referral to a tertiary centre.

Tertiary Centres or 'Centres of Excellence' are listed on the first 5 pages of this document. To those who have difficulty travelling, non-tertiary centres are listed on page 6 - 8.

Please note: The Pituitary Foundation staff and volunteers do not "recommend" consultants or hospitals. When signposting, explain to the enquirer that The Foundation's policy is to provide information for the nearest Pituitary Centre of Excellence (i.e., a clinic with more pituitary experience and expertise).

Endocrine Clinic 'CENTRES OF EXCELLENCE'			
Main Centres	Hospital	Switchboard	Address
Aberdeen	Aberdeen Royal Infirmary		Foresterhill Aberdeen AB25 2ZN
Belfast	Royal Victoria Hospital	028 9024 0503	274 Grosvenor Road Belfast BT12 6BA
