

An adrenal crisis can be life-threatening. Share your experience to help improve care.

Take part to help us understand what it is like to experience an adrenal crisis, how you recognise the symptoms, manage the crisis, and seek emergency care.

Please take part if you:

- Are aged **18 or over** and receive **medical care in the UK**
- Have been diagnosed with **adrenal insufficiency** (any type)
- Are taking **glucocorticoid replacement treatment**, such as hydrocortisone or prednisolone tablets.

What is involved?

An anonymous online survey (~ 20-25 minutes)

1:1 online interview with consent* (~ 45-60 minutes)

**Participants will receive a £20 voucher*

Scan the QR codes or click on / type in the URL links to access the survey (left) & interview (right)
